

# High Temperature Hot Plate PA-8005

## Characteristics

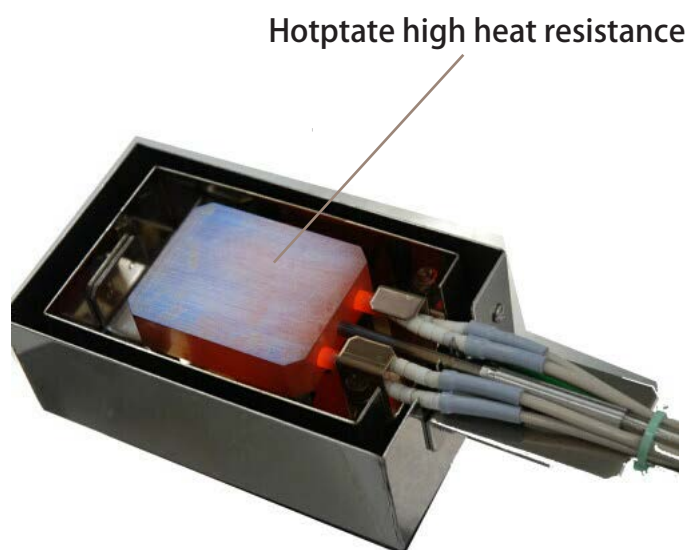

- Temperature Range: room-temperature~800°C
- Hot Plate Size: 54×64mm
- All MSA Hotplate shipped with certificate showing their performance at a factory inspection. (pre-calibrated for temperature)
- Our Controller system are external (sold separately)
- MSA Factory is a Japanese company which assembles hot plates in small lots to respond to each and every one of our customers' needs.

## Structure/Application

Chemical / Research and development for Material  
Ceramic/ Metal/ Inorganic

Digital Temperature Controller  
Type: PCC-100E

Type: PA-8005

## Specification/Customize

Temperature setting range	RT~800°C	—	○: Customized support
Plate size	50×64mm	○	
Temperature distribution	±5.0%	—	
Heater	AC200,240V ,400W	○
