

High Temperature Hot Plate PA-8010

Characteristics

- Temperature Range: room-temperature~800℃
- Hot Plate Size: 100×100mm
- All MSA Hotplate shipped with certificate showing their performance at a factory inspection. (pre-calibrated for temperature)
- Our Controller system are external(sold separately)
- MSA Factory is a Japanese company which assembles hot plates in small lots to respond to each and every one of our customers' needs.

Structure/Application

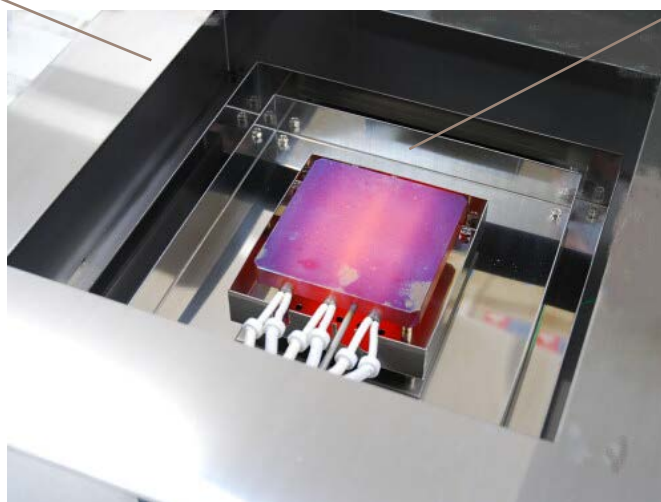

Chemical / Research and development for Material
Ceramic/ Metal/ Inorganic

SUS-made safety cover

Hotplate high heat resistance

Digital Temperature Controller
Type: PCC-100E

Type: PA-8010

Specification/Customize

		○:Customized support
Temperature setting range	RT~800℃	—
Plate size	115×115mm	○
Temperature distribution	±5.0%	—
Heater	AC200,240V ,1500W	○
